"I did my maternity photoshoot with Janette and felt magical. Janette was so very professional yet so friendly and made all of us feel very comfortable, including my 2-year-old toddler with her wide range of toys. Janette was literally balancing a doll on her head while clicking photos to make my girl smile and pose for pics. Loved wearing various dresses from her collection." - Prags, Sydney Australia

# Outdoor Sessions

# Mhat is the Best Time FOR YOUR MATERNITY PORTRAITS?

The best time for maternity portraits is sometime between 26-34 weeks of pregnancy.

The ideal time can be different individually and depends on many things like the size of the baby, the built and height of the expecting mum, and if she has any issues during her pregnancy.

The best advice is to have your maternity photos taken when your belly already obviously shows and you are feeling great and up to it.

It is always a good idea to come for a pre-shoot consultation sometime during the second trimester and discuss the best time individually.

We also recommend to book your session a few weeks ahead because our calendar fills up quickly.

# The Vielling CHOOSING YOUR IMAGES

After your portrait shoot I will hand select the best of the best shots from your session. I'm going to choose only the epic images from the day, about 40-50 of them.

We are going to have another appointment, your reveal session, where I will show you a cinematic presentation of the images and then you get to choose your favourite ones and decide on your portrait collection.

I will give each of your chosen images a signature retouch and will also design and order the printed art you choose with your collection.

Payment for images, printed art and portrait collection is due at the reveal session.
